ABOUT INSTITUTE

StockHomes Institute was established in 2018 with the goal of transforming students into profitable traders and investors by offering complete stock market education along with effective entry and exit strategies. The StockHomes Institute is known for its focus on practical training. We will commence live trading 15 days after your classes begin. We encourage live trading over virtual trading because fear, greed, and hope are the biggest enemies of trading, and we aim for you to overcome these emotions before finishing our course.

**TRAINED MORE THAN
10000+ STUDENTS
IN 6+ YEARS**

and building a Strong Trader's community that helps each other to grow.

TRADER, FOUNDER AND MENTOR

When I was 18, I began my journey. Now, after more than 14 years of practice and experience, I have made a system that can help anyone make money in the stock market. I feel stock market is a business, and all businesses need an right approach to do things. I teach my students how to make a process that can help them make 5 figures by using and learning that process with small capital.

Dilpreet Singh Bhatia
